AMENDMENTS TO THE CLAIMS:

This listing of claims will replace all prior versions, and listings, of claims in the application:

1. (Currently Amended) A method comprising:
requesting, with a peripheral device, an identity of at least one supplier for at least one consumable for [[a]] the peripheral device;
identifying the receiving information identifying at least one supplier for the at least one consumable based on the request; and
displaying indicating, with the peripheral device, the identified at least one supplier.
2. (Currently Amended) The method as set forth in claim 1, further comprising indicating, at the peripheral device, when replacement of at least one of the consumables in the peripheral device is recommended, wherein the requesting request is based on the indication of the recommended replacement.
3. (Currently Amended) The method as set forth in claim 1-31, further comprising retrieving information about the peripheral device making the request, wherein the identifying the at least one supplier is based on the retrieved information.
4. (Currently Amended) The method as set forth in claim 3, wherein the retrieved information about the peripheral device identifies a location of the peripheral device, wherein and the identifying the at least one supplier is based on the identified location of the peripheral device.
5. (Currently Amended) The method as set forth in claim 1, wherein the identifying received information the at least one supplier further comprises information identifying a quantity of the at least one consumable at the identified at least one supplier, wherein and the displaying indicating the identified at least one supplier further comprises displaying indicating the identified quantity of the at least one consumable.
6. (Currently Amended) The method as set forth in claim 1, wherein the identifying the at least one supplier received information further comprises information

identifying a price of the at least one consumable at the identified at least one supplier, wherein and the displaying indicating the identified at least one supplier-further comprises displaying the indicating each identified price of the at least one consumable.

7. (Currently Amended) The method as set forth in claim 1, wherein the identifying the at least one supplier received information further comprises information identifying a location of the identified at least one supplier, wherein the displaying the identified at least one supplier and the indicating further comprises displaying indicating the location of the identified at least one supplier.

8. (Currently Amended) The method as set forth in claim 1, further comprising submitting, with the peripheral device, an order for the at least one consumable to the at least one identified supplier.

9. (Currently Amended) The method as set forth in claim 8, further comprising:

processing the submitted order for, and
supplying the at least one consumable for the peripheral device.

10. (Currently Amended) The method as set forth in claim 9, wherein the processing the submitted order further comprises receiving a payment for the at least one consumable.

11. (Currently Amended) A computer readable medium having stored thereon instructions for shopping for at least one consumable for a peripheral device which, when executed by at least one processor, cause the processor to perform the steps of:

requesting, with a peripheral device, an identity of at least one supplier for at least one consumable for [[a]] the peripheral device;

identifying the receiving information identifying at least one supplier for the at least one consumable based on the request; and

displaying indicating, with the peripheral device, the identified at least one supplier.

12. (Currently Amended) The medium as set forth in claim 11, further comprising indicating, at the peripheral device, when replacement of at least one of the consumables in the peripheral device is recommended, wherein the requesting is based on the indication of the recommended replacement.

13. (Currently Amended) The medium as set forth in claim 14-32, further comprising retrieving information about the peripheral device making the request, wherein the identifying the at least one supplier is based on the retrieved information.

14. (Currently Amended) The medium as set forth in claim 13, wherein the retrieved information about the peripheral device identifies a location of the peripheral device, wherein and the identifying the at least one supplier is based on the identified location of the peripheral device.

15. (Currently Amended) The medium as set forth in claim 11, wherein the identifying received information the at least one supplier further comprises information identifying a quantity of the at least one consumable at the identified at least one supplier, wherein and the displaying indicating the identified at least one supplier further comprises displaying indicating the identified quantity of the at least one consumable.

16. (Currently Amended) The medium as set forth in claim 11, wherein the identifying the at least one supplier received information further comprises information identifying a price of the at least one consumable at the identified at least one supplier, wherein and the displaying indicating the identified at least one supplier further comprises displaying indicating the identified price of the at least one consumable.

17. (Currently Amended) The medium as set forth in claim 11, wherein the identifying the at least one supplier received information further comprises information identifying a location of the identified at least one supplier, wherein and the displaying indicating the identified at least one supplier further comprises displaying indicating the location of the identified at least one supplier.

18. (Currently Amended) The medium as set forth in claim 11, further comprising submitting, with the peripheral device, an order for the at least one consumable to the at least one identified supplier.

19. (Currently Amended) The medium as set forth in claim 18, further comprising:

processing the submitted order for, and
supplying the at least one consumable for the peripheral device.

20. (Currently Amended) The medium as set forth in claim 19, wherein the processing the submitted order further comprises receiving a payment for the at least one consumable.

21. (Currently Amended) A system comprising:

a requesting system that requests, with a peripheral device, an identity of at least one supplier for the at least one consumable for the peripheral device;

an identification receiving system that identifies the receives information identifying at least one supplier for the at least one consumable based on the request; and

a display an indication system, with the peripheral device, that displays indicates the identified at least one supplier.

22. (Currently Amended) The system as set forth in claim 21, further comprising an indication system that indicates at the peripheral device when replacement of one or more of the consumables in the peripheral device is recommended, wherein the request by the requesting system is based on the indication of the recommended replacement.

23. (Currently Amended) The system as set forth in claim 21-33, further comprising a retrieval system that retrieves information about the peripheral device making the request, wherein the identification system identifies the at least one supplier based on the retrieved information.

24. (Currently Amended) The system as set forth in claim 23, wherein the retrieved information about the peripheral device identifies a location of the peripheral device, wherein and the identifying identification system identifies the at least one supplier is based on the identified location of the peripheral device.

25. (Currently Amended) The system as set forth in claim 21, wherein the identification system the received information identifies a quantity of the at least one consumable at the identified at least one supplier, wherein the display indication system displays indicates the identified quantity of the at least one consumable.

26. (Currently Amended) The system as set forth in claim 21, wherein the identifying the at least one supplier received information further comprises information identifying a price of the at least one consumable at the identified at least one supplier, wherein and the display indication system displays indicates the identified price of the at least one consumable.

27. (Currently Amended) The system as set forth in claim 21, wherein the identifying the at least one supplier received information further comprises information identifying a location of the identified at least one supplier, wherein and the display indication system displays indicates the location of the identified at least one supplier.

28. (Currently Amended) The system as set forth in claim 21 further comprising an ordering system with the peripheral device that submits for submitting an order for the at least one consumable to the at least one identified supplier.

29. (Currently Amended) The system as set forth in claim 28 further comprising an order processing system that processes for processing the submitted order for and supplies the at least one consumable for the peripheral device.

30. (Currently Amended) The system as set forth in claim 9-29, wherein the processing system processes a payment for the at least one consumable.

31. (New) The method as set forth in claim 1, comprising:

receiving the request, and
identifying the at least one supplier for the at least one consumable based on
the received request.

32. (New) The medium as set forth in claim 11, comprising:
receiving the request, and
identifying the at least one supplier for the at least one consumable based on
the received request.

33. (New) The system as set forth in claim 21, comprising an identification
system for receiving the request and identifying the at least one supplier for the at least one
consumable based on the request.

34. (New) The method as set forth in claim 1, wherein said indicating the
identified at least one supplier comprises at least one of displaying received identification
information and printing received identification information.

35. (New) The medium as set forth in claim 11, wherein said indicating the
identified at least one supplier comprises at least one of displaying received identification
information and printing received identification information.

36. (New) The system as set forth in claim 21, wherein the indication
system comprises at least one of a display for displaying received identification information
and a printer for printing received identification information.

37. (New) The method as set forth in claim 1, wherein the peripheral
device is a device selected from a printer, a copy machine, and a facsimile machine.

38. (New) The medium as set forth in claim 11, wherein the peripheral
device is a device selected from a printer, a copy machine, and a facsimile machine.

39. (New) The system as set forth in claim 21, wherein the peripheral
device is a device selected from a printer, a copy machine, and a facsimile machine.
